Golf Sport Academy Stanglwirt

We provide a golf training facility of the highest quality standards, which meet those of the international PGA tour. This institution begins with a brilliant infrastructure and the most professional equipment, for instance the Callaway range balls (tour preferred), and is then honed with a 5-star service and completed with an innovative, contemporary golf school. Every golfer who comes to our facilities will find the optimum setting to improve their game, whether they are a European tour player, weekend golfer or beginner.

Thanks to close collaboration with Callaway and Taylor Made there is the opportunity to test out all the products these manufacturers offer.

Since the professionals in 'Golf Sport Academy Stanglwirt' as Ulf Wendling have played lots of tournaments on international tours (European Tour, Challenge Tour, Sunshine Tour, Alps tour) and there is a direct connection between the short game and great results, our training facilities push the short game in particular and offer new practice options for this.

Thanks to modified care of the short play area to provide many different grass heights, it is now possible, for the first time, to simulate almost all situations.

We look forward to welcoming guests, who we place great emphasis on. Feel great during your stay and experience a new standard of golfing experience.

- **10% discount on all prices for hotel guests!**
- All prices quoted are per person
- Number of minutes per session: 50 (unless stated otherwise)
